* Note: Column identifiers represents column placement in the CSV file. The alpha characters indicate the corresponding spreadsheet field position when generating a data file in Excel and the numbers are numeric representations of the same.

* Note: Starting with field number O/15, the Tool can have an unlimited number of user-defined fields. CorImport Field Association screen will display as many user defined fields as have been set up by the user.

* Note: Boolean columns must be populated with a 1(true or yes) or 0(false or no) if the column in the data file is bound to a column in CorImport Field Association screen.
